Globe, AZ 85501

Description of Services Performed: Gila County Healthy Steps Program enhances the relationship between the parents of an infant and their pediatrician, through the child's fifth year. The Healthy Steps Specialist will work with parents to connect them to services in the community, conduct developmental screenings on a regular basis, introduce and support early literacy activities through the provision of developmentally appropriate books to the child, and work to be sure that parent's questions are answered. Home visits will be conducted at birth and key developmental stages to support families raise healthy successful children. The program will implement the Ages and Stages On-Line Enterprise Screening including Parent Access to ensure that all children receive timely developmental and social emotional screen. The Gila County Healthy Steps Program will serve as the leader in implementing a region-wide developmental screening process that will allow children to receive timely screenings from their first contact with the early childhood system.
