After looking into the 02Y3 and 02Y2, they are for internal purpose only and have no bearing on the contact you received, the contract number stays the same, and those numbers are just admin codes for us.

Subject: RE: DOE Weatherization contracts

Hello,
I am preparing to enter Amendment No. 1 to go before the BOS for approval but I have a question on the Contract No. The number on this amendment says EW-ESA-14-4181-02Y2 but the number on the item that was approved in November by the Board is EW-ESA-14-4181-02Y3. I have attached the first page of this item. Do these 2 items pertain to the same contract or are they different? I'm not sure if 02Y2 should be 02Y3.
Thanks much for your help.....

To all,

Please keep an eye on the mail, DOE contracts were dropped in the Fed EX box today for delivery, you should be receiving them in the next few days. There are three copies of the signed amendment, please have all three signed,

returning two of them to the address on the cover letter along with the other required information and keeping the third signed copy for your agency. If you have any questions fell free to contact me
