Please use the space below to write a brief description of the project:

Estimated Time to Completion

Three (3) years

Estimated Project Cost

\$ 600,000.00

Gila County Emergency Management will buyout 6 properties that experienced significant flood damage in January 2010 and are located in high risk flood plain areas. The intent to is return these properties to their natural state and mitigate future flood insurance payouts.

The estimated cost of buyout includes home value, appraisal, closing costs, and demolition.

This project is in line with flood mitigation recommendations provided by the U.S. Army Corp of Engineers after the January 2010 Winter Storms.
