Valrie

This is Joey's explanation of delay for spread chgs. I don't know when I will be in. Is it ready to go on agenda or do I need to forward it on AQ?

Steve, Is this okay? Do you want Valrie to continue with Agenda item?

Steve,

Per our conversation in regards to the Solicitation Number 061311-1 MC-800TR Chip Seal Oil, Wright Asphalt Products Company will only bill you on the Delivered in Place with Boot Truck per ton of MC-800TR, unless the county is responsible for more than three hours of spreader stand-by delays. All other line items in the bid packet are still in effect.
