Via e-mail

To: Supervisors Shirley Dawson, Tommie Martin, and Michael Pastor
Robert Gould, Director - Gila County Community Development
Don Ascoli, Chairman, Planning & Zoning Commission
Cc: Beverly Valenzuela

I am writing this letter as my official resignation from the Gila County Planning & Zoning Commission, effective immediately. I have enjoyed serving you and the taxpayers of Gila County since June of 2006 and have especially appreciated the opportunity to speak on behalf of the property owners of Young in District 3.

Although I know there are other important matters to be discussed which will directly affect planning and zoning in the town of Young, I must respectfully resign at this time as lately, I have had numerous conflicts between P & Z meetings and real estate appointments. My schedule is further complicated because I started a second career in January, which includes a distance learning, certification program in addition to executing my business plan. I also volunteer as Treasurer for the Young Cemetery Board and am actively participating in various Gila County Master Gardener Association projects.

In order to manage my life with some semblance of sanity, I have opted to look for another conscientious Young citizen to replace me. Since Young will be directly affected by your decisions in the near future, I have been canvassing the community to try to find someone who would serve the P & Z Commission well. Like many small towns, some of the people I have spoken to are also volunteering on local governing boards. I'll keep trying and notify you when I find someone who will consider serving.

Respectfully yours,

Renee Zeising
