PROFESSIONAL SERVICES CONTRACT NO. 091514-2

NEW BRIDGE OVER TONTO CREEK

FINAL WORK PERFORMED UNDER CONTRACT NO. SS71803D

THIS AGREEMENT, made and entered into this 24th day of September, 2014, by and between Gila County, a political subdivision of the State of Arizona, hereinafter designated the **COUNTY**, and Kimley-Horn and Associates, Inc. of the City of Phoenix, County of Maricopa, State of Arizona, hereinafter designated the **ENGINEER**.

WITNESSETH: That the **Engineer**, for and in consideration of the sum to be paid him by the **County**, in the manner and at the time hereinafter provided, and of the other covenants and agreements herein contained, hereby agrees, for himself, his heirs, administrators, successors, and assigns as follows:

ARTICLE I – SCOPE OF SERVICES: Kimley-Horn has been the engineering firm on the Tonto Creek Bridge and Oak Creek Bridge design from the inception. Contract No. SS71803D was entered into between Gila County and Kimley-Horn on November 3, 2009. The contract provided for the Tonto Creek Bridge and Oak Creek Bridge design to be completed in two phases. Phase 1, Design Concept Report and Environmental Studies, was to be performed on a lump sum basis, with a not-to-exceed without written authorization budget of \$1,744,997. Phase 2, Final Design (Plans, Specifications and Estimates), was to be performed on a lump sum basis, with a not-to-exceed without written authorization budget of \$747,309, for a total cost of \$2,492,306.

Amendment No. 1 was executed on January 4, 2011 to increase the authorized amount for Phase 2 by an additional \$202,683, for a new completed authorized budget, for Phase 2 of \$949,992. Per the terms of the original contract, prior to Phase 2 beginning, the Engineer and County would review and refine the scope of services for Phase 2, as may be required as a result of design, scope and management decisions made during Phase 1. After completion of Phase 1, it was necessary to modify the design and scope of work, resulting in a cost increase to complete Phase 2 of the project.

Amendment No. 2 was executed on September 6, 2011 to extend the term of the contract to June 30, 2012. Due to massive flooding in January 2010 rearranged the creek bottoms, creating ditches and berms that would not allow access for the drill rigs to the bore hole locations, without assistance from a large front end loader. A Phase 2 increase of \$12,641 was supposed to have been added to Amendment No. 2 for the additional cost for a loader and operator to smooth out the creek bottom and pull the rig through the sand if needed. The increase failed to get added to Amendment No. 2.

Amendment No. 3 was executed on March 6, 2012 to increase the authorized budget amount of Phase 2, from \$949,992 to \$1,007,166. The increase of \$57,174 was for value engineering of the geotechnical results and the second year of the Willow Flycatcher surveys.

Due to an oversight, the contract term was not extended after the June 30, 2012 date. The final work for Phase 2 was completed on August 31, 2014, resulting in a final cost increase for Phase 2 of \$3,248.74 on Contract No. SS71803D.

ARTICLE II – INDEMNIFICATION CLAUSE: Engineer shall indemnify, defend, save and hold harmless the County of Gila and its officers, officials, agents, and employees (hereinafter referred to as “Indemnatee”) from and against any and all claims, actions, liabilities, damages, losses, or expenses (including court costs, attorneys’ fees, and costs of claim processing, investigation and litigation) (hereinafter referred to as “Claims”) for bodily injury or personal injury (including death), or loss or damage to tangible or intangible property to the extent caused, or alleged to be caused, in whole or in part, by the negligent or willful wrongful acts or omissions of Engineer or any of its owners, officers, directors, agents, employees or subcontractors. This indemnity includes any claim or amount arising out of or recovered under the Workers’ Compensation Law or arising out of the failure of such Engineer to conform to any federal, state or local law, statute, ordinance, rule, regulation or court decree. It is the specific intention of the parties that the Indemnatee shall, in all instances, except for Claims arising solely from the negligent or willful acts or omissions of the Indemnatee, be indemnified by Engineer from and against any and all claims arising from its services under this Contract. It is agreed that the Engineer will be responsible for primary loss investigation, defense and judgment costs where this indemnification is applicable and that Engineer shall defend the claims that appear to fall within the scope of the indemnification, even though Engineer is subsequently found not liable under this Indemnification. In consideration of the award of this contract, the Engineer agrees to waive all rights of subrogation against the County, its officers, officials, agents and employees for losses arising from the work performed by the Engineer for the County.

ARTICLE III - INSURANCE REQUIREMENTS: Engineer and subcontractors shall procure and maintain until all of their obligations have been discharged, including any warranty periods under this Contract are satisfied, insurance against claims for injury to persons or damage to property which may arise from or in connection with the performance of the work hereunder by the Engineer, his agents, representatives, employees or subcontractors.

The insurance requirements herein are minimum requirements for this Contract and in no way limit the indemnity covenants contained in this Contract. The County in no way warrants that the minimum limits contained herein are sufficient to protect the Engineer from liabilities that might arise out of the performance of the work under this contract by the Engineer, his agents, representatives, employees or subcontractors and Engineer is free to purchase additional insurance as may be determined necessary.

If the breach is by a subcontractor, and the subcontract is suspended or terminated as a result, Engineer shall be required to take such steps as may be necessary to either self-perform the services that would have been provided under the subcontract or retain a replacement subcontractor, as soon as possible so as not to delay project completion.

Engineer shall advise each subcontractor of County’s rights, and the subcontractor’s obligations, under this Article by including a provision in each subcontract substantially in the following form:

“Subcontractor hereby warrants that it will at all times during the term of this contract comply with all federal immigration laws applicable to Subcontractor’s employees, and with the requirements of A.R.S. § 23-214 (A).
