**TOTAL HARDWARE AND SOFTWARE: \$4,285.00**

*(Please sign, remit and return in the enclosed prepaid envelope, keeping one copy for your files.)*

1. Extended maintenance coverage does not include any ancillary products incorporated into the MCU hardware not manufactured by MTI. (i.e., antenna's etc.)
2. No expressed or implied warranty is made or included for any MegaTrak® part(s) and/or products which are not installed, used, or operated in accordance with MT instructions and specifications, or which may be damaged by accidents, abuse, misuse, vandalism, natural or personal disaster, including, but not limited to lightning, fire, flood, riot, and/or any unauthorized modifications or modifications made without prior written approval of MTI.
3. Site visits and the costs are not covered under this agreement and must be arranged for separately.
4. Customers not under maintenance contracts will be billed a license fee and for necessary software upgrades required by the MT software to function properly.
5. MTI is not responsible for loss of data. Customer must maintain sufficient backups.
6. MTI shall have no liability for damages or indemnity in any amount exceeding the charges paid by customer to MTI for the licensed program(s) above.
7. Any hardware not listed under "Hardware Maintenance Includes" is not covered, to include but not limited to equipment such as ATG probes, consoles, multiplexers and sensors.
8. All service or equipment ordered by customer must have a purchase order or RMA # from MTI.
9. Replacement of equipment over five (5) years of age and deemed not repairable may be purchased through MTI at a discounted price.

**MegaTronics International Corp.**  
Manufacturer of the MegaTrak® Automated Fuel Management System

May 19, 2015

Gila County-Fuel Management  
ATTN: Jeannie Sgroi, Accounts Payable  
Guerrero Building  
1400 East Ash Street  
Globe, AZ 85501

Dear Jeannie Sgroi:

**RE: MegaTrak Fuel System Extended Hardware/ Software/Licensing Agreement**

ATTN: Accounts Payable:

As promised, MTI is respecting the same price as last year for your annual EMA, to thank you for being part of the MegaTrak® team. MTI bills early as many customers wish to use monies left over in their budget cycles.

Please visit our Customer Share Point site to see all of the new MT innovations and capabilities:

<http://www.megatrak.net/sites/customers>

User name: mega Password: M9000! Please see attached.

It is important to maintain this vital insurance coverage and support to keep MegaTrak® "like new". With it, (MTI) will warranty/insure your hardware/software license/support and guarantee all software upgrades at no charge. The renewal date for the extended maintenance agreement is **August 1, 2015** and will continue through **July 31, 2016**. The enclosed agreement is an addendum to the initial agreement and subsequent addendums. In an effort to go green, you may pay by credit card, electronic payment or check.

The cost of this coverage is **\$4,285.00**. The attached invoice is broken down to cover hardware for **\$2,240.00** which includes the communications module, keypad overlays, speakers, key drives, locks, diagnostic fees, support, reprogramming, firmware upgrades, labor costs, and return shipping by ground, etc.; and also, the MT Pro Standard Host/Remote Software with Preventative Maintenance for **\$2,045.00**. This support includes all upgrades free of charge, and required fixes to the program necessitated by Microsoft, in order to maintain the quality and operation of the proprietary MT software. MTI is not responsible for loss of data if the customer does not provide and maintain sufficient backups. Any hardware not listed under "Hardware Maintenance Includes" is no longer covered but not limited to ATG probes, consoles, multiplexers and sensors. Site visits and their costs are not covered by this agreement and must be arranged for separately by the **GILA COUNTY** and MTI.

It is necessary that the **GILA COUNTY** maintain a trained operator in the operation of the MegaTrak® System to keep your system running properly, but should new or additional people require training; MTI can provide such at the customer's expense.

MTI, a small woman-owned company is proud of its patented fuel management system and includes a "license fee" to protect any part of the MT System's hardware or software from being used by any competing fuel system. MTI is always willing to assist with the interfacing of any third party maintenance programs, but would appreciate notice in writing or by email so that a programmer can be made available to assist during the interface process.

Sincerely,

Kay Turner, CEO  
MegaTronics International Corp.
