Program Organization Chart

Required Narrative Responses

Provide a narrative response that addresses the following items.

- a) Provide a description of the program being proposed.

The Gila County Library District will continue to oversee a collaborative early literacy effort among the District, San Carlos Public Library, and Gila County Health Department (WIC) to promote early literacy development in young children, birth to age five, by providing evidenced-based research training to parents/caregivers at various locations throughout the San Carlos Apache Reservation. The District will enroll children in the Imagination Library program whose parents/caregivers attend the information sessions on the importance of early literacy which include information from Every Child Ready to Read and the Imagination Library. The Imagination Library program will mail age-appropriate, professionally selected books monthly to each child enrolled. The Early Literacy Program Coordinator will plan and conduct weekly parent and caregiver workshops at the San Carlos Public Library and Head Start locations. The content of workshops will be monitored and evaluated by the Public Services Librarian. Brain Boxes will be used to instruct parents on the importance of developing early reading skills and ways to work with their children.

This project will build on the work that the San Carlos Public Library already does regarding early childhood literacy efforts. Since 2005, those efforts have included information regarding the importance of early literacy development for young children, providing evidenced-based research training to parents and caregivers at public gathering places and community events outside the public library setting, and including the foundational building blocks to early literacy development in storytimes and other preschool activities in the library setting.

Library staff at the San Carlos Public Library and the District office will register eligible children based upon residence (determined by zip code) and birthdates, enter the data in the Imagination Library database, pay the monthly invoice (average of \$25.59 per child per year), and pick up undeliverable books at the Post Offices throughout the service area. When the parents are known by the Liaisons, these books will be hand-delivered by the Liaisons as time permits. Remaining books will be given as First Books to children who sign up for the program. The County Librarian and Public Services Librarian will evaluate the program on a regular basis, create the evaluation forms and collect the required FTF evaluation data. Staff at the library will be involved in enrolling children and assisting with the collection of evaluation data. The Community Liaisons will provide evidenced-based research training in venues and at events that happen in each of the communities. The Community Liaisons will offer parent and caregiver early literacy trainings with the local partners, i.e. San Carlos Apache Tribe WIC, San Carlos Head Start, etc.

The Community Liaisons and the staff at the San Carlos Public Library will be actively involved in enrolling children at the library, at other venues and at community events throughout the San Carlos Apache Reservation in order to access hard-to-reach families. Library District staff has already set up a collaborative effort with the Gila County Health Department WIC program which provides contact and training for 400 families countywide which includes the families of the San Carlos Apache Nation. Where many WIC programs around Arizona are experiencing a decline in the number of families served, the Gila County WIC program has been experiencing an increase in service population. Other access points for reaching families will be at community events in each local community, social service agencies, and typical gathering places for parents such as grocery stores, churches, and doctors' offices.

Outcomes will be measured according to the performance measures required by First Things First as outlined on page 4 of the Grantee Agreement. Information will be gathered through a May survey distributed by Community Liaisons and the San Carlos Public Library Manager to the families participating in the program.

- b) Provide a description of the following related to the target population to be served by the proposed strategy:
- How the program will specifically address the target population identified in this agreement. How the Target Service Number based on the Unit of Service(s) included in the Scope of Work (Exhibit A) will be achieved.
 - How the program will meet the needs of the targeted population in terms of being culturally responsive, linguistically appropriate, age appropriate and gender responsive.
 - How recruitment and outreach efforts and engagement and retention practices will be employed in this program for the targeted population.

The Gila County Library District will target 750 children ages birth to five in the region to be registered and receive books through the Imagination Library program, a 21% increase, and 150 5-year-olds to receive 9 issues of Ladybug Magazine. The 2010 U.S. Census counted 1203 children in the birth to five population in the Bylas/Peridot/San Carlos region. Average enrollment for FY14 was 575. Final enrollment for FY15 is 620 plus 147 magazine subscriptions. In future years, as enrollment increases, we will re-evaluate personnel needs and appropriate more money toward books.

The Gila County Library District will also specifically target children who are participating in existing First Things First programs in the region to be enrolled in or take part in the Imagination Library Book Program.

By hiring an Early Literacy Program Coordinator and Community Liaisons who know the needs of the targeted population in terms of cultural competency, the District hopes to successfully continue to reach a large percentage of the targeted population. The Early Literacy Program Coordinator will plan and conduct parent-child workshops at the San

Carlos Public Library and Head Start locations, using Brain Boxes, Storytimes, and information from the Every Child Ready to Read curriculum. The Liaisons will talk with parents at various venues throughout the region.

- c) Identify capacity or infrastructure building which will be needed to provide the proposed program, including agreements and partnerships with other departments and agencies, additional resources, and training and technical assistance.

The Gila County Library District will partner with the San Carlos Public Library, the San Carlos WIC program, Apache Kid Child Care, and the Head Start programs to provide the proposed service. Each of these entities is a part of the San Carlos Collaborative of First Things First. The San Carlos Public Library is an affiliate of the Gila County Library District. We have informal partnerships with the other groups. This is an area which we will develop further to be aware of services provided. The Safford City-Graham County Library assists us by using the Imagination Library to transfer registrations of children from Bylas who are part of our region.

- d) Identify barriers to providing the proposed program and plans for addressing these barriers.

Permission to access some of the venues may be needed in order to set up information booths at various locations. Arrangements to do so will be one of the duties of the Community Liaisons. The District will reach out to the Regional Director of the San Carlos Apache Regional Partnership Council for guidance and direction in continuing the process to gain permission to implement services in the regional area. The Early Literacy Program Coordinator will contact Head Start and other locations outside of the San Carlos Public Library to make arrangements to conduct workshops. The Liaisons will seek permission to set up booths and/or talk with parents at various community events.

- e) Describe plans to recruit and locate personnel within the geographical region of the provided program that meet the staff qualification standard detailed in the Standards of Practice and are linguistically appropriate and culturally responsive for the population to be served. If there is anticipated difficulty in hiring qualified personnel, include a plan and timeline for supporting staff to meet the qualification standard.

By hiring temporary part-time employees who live on the San Carlos Apache Reservation as Community Liaisons, the District hopes to avoid any barriers such as linguistic and cultural conflicts between the promoter and the parents/caregivers that would come up if the promoter were not from the local communities. The current Early Literacy Program Coordinator, Candelaria Brown and the two Community Liaisons, Stephanie Dean and Bradley Allison, reside within the San Carlos Apache Reservation. These personnel will be retained for FY16. If a need arises to replace personnel, we will again advertise for applicants within the San Carlos area and keep this a priority in evaluating applications and conducting interviews.

- f) Describe steps that will be taken to promote collaboration with other government departments and partners working with the agency.

The District will instruct the Community Liaisons to seek out tribal departments and partners by becoming active members of the San Carlos Apache Regional Partnership Early Childhood Development and Health Collaborative in order to help promote the program so that as many children as possible will get an opportunity to enroll in the Imagination Library.

- g) Describe the plan and resources necessary to meet FTF basic reporting requirements and maintain data securely and confidentially.

The District will use Imagination Library Registration forms in order to gather information necessary to enroll each child in the program. The District agrees to participate in the FTF quarterly evaluations and any program-specific evaluation or research efforts adhering to tribal data/research protocol and procedures. Data collection and FTF evaluation activities will be directly connected with the Goals, Performance Measures and Units of Services aligned to the strategy described in this scope of work. The Early Literacy Program Coordinator will report to the Public Services Librarian the number and type of workshops conducted and the number of participants. The Public Services Librarian will clarify if these meet the criteria for a "workshop" and add them to the quarterly reports. The Liaisons will report the number of events attended and the number of parents and children with whom they interact.

The Public Services Librarian spends approximately 16% of their time annually as staff for this grant. In addition, this position will be responsible for subscribing to magazines for the 'Graduates' each month. In an attempt to more accurately reflect the true cost of staffing this grant, 16% of the Public Services Librarian salary will be allocated to this grant.

Exhibit A – Overview of First Things First and Scope of Work

Overview of First Things First

First Things First is designed to meet the diverse needs of children and families in Arizona communities. The statewide First Things First Board and Regional Partnership Councils in local communities across the state share the responsibility of ensuring that early childhood funds are spent on strategies that will result in improved development, health and education outcomes for young children.

Local Regional Partnership Councils are comprised of community volunteers, with each member representing a specific segment of the community that has a role in ensuring that Arizona's children grow up to be ready for school and set for life: parents, leaders of faith communities, tribal representatives, educators, health professionals, business leaders and philanthropists.

First Things First Strategic Direction

First Things First's commitment to young children means more than only funding programs and services. It means having a shared vision about what being prepared for kindergarten actually means. First Things First specifies that programs and services funded by the First Things First Board and Regional Partnership Councils are to address one or more of the following Goal Areas to impact children birth to age five and their families:

- Improve the quality of early childhood development and health programs
- Increase the access to quality early childhood development and health programs
- Increase access to preventive health care and health screenings
- Offer parent and family support and education concerning early childhood development and literacy
- Provide professional development and training for early childhood development and health providers
- Increase coordination of early childhood development and health programs and provide public information about the importance of early childhood development and health

The First Things First Board established a strategic framework with a set of school readiness indicators that provide a comprehensive composite measure to show if Arizona is making progress in providing opportunity for young children to be ready for school and set for life. The strategies funded by First Things First work collectively to develop a comprehensive system across the state and regionally to address the school readiness indicators. The First Things First Board and Regional Partnership Councils determine the priorities and strategies to be funded across the state and throughout the regions assessing the challenges and building on the resources and assets in place.

School Readiness Indicators

- #/% children demonstrating school readiness at kindergarten entry in the development domains of social-emotional, language and literacy, cognitive and motor and physical.

- #/% of children enrolled in an early care and education program with a Quality First rating of 3-5 stars.
- #/% of children with special needs enrolled in an inclusive early care and education program with a Quality First rating of 3-5 stars.
- #/% of families that spend no more than 10% of the regional median family income on quality care and education with a Quality First rating of 3-5 stars.
- % of children with newly identified developmental delays during the kindergarten year.
- #/% of children entering kindergarten exiting preschool special education to regular education.
- #/% of children ages 2-4 at a healthy weight (Body Mass Index-BMI).
- #/% of children receiving at least six well child visits within the first 15 months of life.
- #/% of children age 5 with untreated tooth decay.
- % of families who report they are competent and confident about their ability to support their child's safety, health and wellbeing.

Scope of Work

Statement of Need

In the San Carlos Apache Region the San Carlos Unified School District is the only school district that lies fully within the reservation boundaries. Other children who live in the region also attend school in the Fort Thomas Unified School District. The 2014 Regional Needs and Assets Report for the San Carlos Apache region reports that half of third-graders in Fort Thomas Unified School District and 21 percent of third-graders in San Carlos Unified School District passed the reading portion of the Arizona's Instrument to Measure Standards (AIMS). The stakes have never been higher for children to be ready to read when they enter kindergarten. Third graders are possibly held back if they are not reading on grade level.

The Regional Needs and Assets Report also states that 39 percent of the births in the San Carlos Apache Region are to women without a high school diploma or GED, a rate that is higher than that of all Arizona reservation combined (33 percent) causing concern among the Regional Partnership Council that mothers may not be as excited to read to their child.

The San Carlos Apache Regional Partnership Council would like this strategy to implement the Imagination Library for children ages birth to five in the region. By implementing this strategy it is the hope of the Regional Partnership Council that families get excited about reading to their children and have a home environment rich with books.

Description of Strategy

Parenting Outreach and Awareness provides families of young children with information, materials or connections to resources and activities that increase awareness of early childhood development and health. In most cases, outreach and awareness alone are not sufficient to make or sustain a behavior change. While awareness may increase, families may not have the resources or tools to effectively implement the change. For example, families may have heightened awareness of the benefits of reading to their child, but do not understand which books are

developmentally appropriate or know how to read to a child at different developmental stages. They may not have access to books (e.g., may not be able to afford books; may not live close to a library or have transportation).

While the Parent Outreach and Awareness strategy is considered to be a promising practice, some programs that increase awareness and knowledge may indeed be evidence based or evidence informed and result in behavior change. It is important to consider that Parenting Outreach and Awareness is likely one approach in the continuum of family support efforts that can provide assistance to families and is likely most effective when coupled or bundled with other supports and services.

The San Carlos Apache Regional Partnership Council is funding this strategy with the book distribution and parenting workshop components. It is not the intent of the Regional Partnership Council to fund earned media or paid advertising. It is important to consider that Parenting Outreach and Awareness is likely one approach in the continuum of family support efforts that can provide assistance to families and is likely most effective when coupled or bundled with other supports and services.

It is expected that the grantee for this grant will adhere to the applicable standards contained in the Parenting Outreach and Awareness Standards of Practice and comply with the Requirements for On Site Child Care Policy and Suspected Child Maltreatment Mandated Reporting Policy. For a link to these documents, refer to the Guidance Materials section of this Agreement.

It has been the experience of First Things First staff that any program new to the San Carlos Apache region that has never implemented a program on the reservation before will need to connect with the Regional Director first before attempting to implement on the reservation. The San Carlos Apache region associates First Things First with the Regional Director, who has established a relationship and trust with the region, it is important for the program, who will be using the First Things First name in the community, to connect with the Regional Director—at least initially.

Any program who will be implementing this strategy in the region will need to have previous experience working in rural or tribal communities and understand some of the cultural aspects of working with these populations.

The program who receives this grant will need to be a part of the San Carlos Apache Regional Partnership Council's Early Childhood Development and Health Collaborative so that the grantee will effectively collaborate and coordinate their efforts with existing tribal and non-tribal programs.

Applicable School Readiness Indicators

Partners implementing this strategy will work collectively with First Things First to address the school readiness indicators below:

- #/% children demonstrating school readiness at kindergarten entry in the development domains of social-emotional, language and literacy, cognitive and motor and physical.
- % of families who report they are competent and confident about their ability to support their child's safety, health and wellbeing.

Applicable Goal Areas

Partners implementing this strategy will work collectively with First Things First to address the goal areas below:

- Improve the quality of early childhood development and health programs
- Offer parent and family support and education concerning early childhood development and literacy

Target Population and Geographic Area to Serve

The target population is families with children birth to five years; 800 children ages birth to five, slightly over half, in the region to be registered and receive books through the Imagination Library Book Club program.

San Carlos Apache Regional Partnership Council provides services in the communities of the San Carlos Apache Tribe located on the San Carlos Apache Indian Reservation. Programs funded under this Agreement must provide services throughout the region. Please note Regional Partnership Council boundaries are set by the Board of First Things First every two years. The Board of First Things First approved updated Regional Partnership Council boundaries for FY2015 and beyond. Please use the following "mapping resource" to see a visual picture of the Regional Partnership Councils and/or search for a council by address: <http://maps.azftf.gov/>

Target Service Units and Performance Measures

A Target Service Unit (TSU) is a First Things First designated indicator of performance specific to each First Things First strategy and it is set by the Regional Council. It is composed of a unit of measure (e.g., participating adults) and a target number. The unit of measure can be a target population (e.g., participating adults), a product (e.g., books distributed) or a service (e.g., fluoride varnishes applied to children, ages 0-5) that a grantee is expected to serve as part of an agreement. The target number represents the actual number of service units proposed to be delivered during the contract year.

Performance Measures are (1) key indicators of performance (Target Service Units); (2) basic implementation of strategy; (3) alignment of program activities to strategy specific standards of practice, (4) performance or progress toward pre-established strategic goals. Performance measures may include the level or type of program activities conducted (e.g. serving families/children through home visits) and/or the direct services and products delivered by a program (e.g., providing scholarships).

For more specific information about the Target Service Units for this strategy, refer to the Guidance Materials section of this Agreement to find the link to the Target Service Unit Guidance Document.

The Target Service and Performance Measures for this strategy are:

Target Service Units:

Number of books distributed: 15,000 (11,130 books distributed for GRA-RC029-16-0761-01)

Number of workshops held: 75

Performance Measures:

Number of books distributed/proposed number

Number of workshops held/proposed number

Number of children receiving books

Number of adults attending workshops

First Things First - Arizona Early Childhood Development and Health Board Data Security Guidelines and Requirements for Collaborators

BACKGROUND:

The purpose of the Arizona Early Childhood Development and Health Board (First Things First - FTF) is to aid in the creation of a system that offers opportunities and support for families and communities in the development of all children, so they can grow up healthy and ready to succeed. Our work is accountable and transparent to decision-makers and the citizens of Arizona. Collaboration and direct funding of grantees to undertake work on behalf of the children and families of Arizona is fundamental to the purpose and mission of FTF. Regular submission of data related to funded work is an important part of ensuring accountability and maximum positive impact for young children, as well as a material condition of receiving FTF grant funding.

Data Security Guidelines for Data Submission to FTF

First Things First will ensure that resources allocated have maximum impact for the benefit of children and families. To ensure this accountability, FTF has established data reporting requirements for all state and regional grantees. All funded providers shall regularly submit programmatic and financial reports as identified in the FTF reporting requirements.

FTF data submissions are classified in one of three levels:

- **Public data**
- **Limited distribution data**
- **Confidential data**

The majority of FTF reporting submissions are completed through the FTF Partner Grant Management System (PGMS). Subsequent to the award of a grant, the grantee will receive general training on login and navigation within the PGMS system. With this login, the grantee will be able to manage their contract information. An additional training on strategy-specific data submission requirements will also be conducted. During that training, the grantee will be informed on submission of data reporting requirements through PGMS. All data submitted through PGMS is **public data** or **limited distribution data**. Because PGMS is located in a secure extranet environment, grantees using PGMS for data submission are not required to undertake additional security measures related to their data submission above those identified in the general and data submission orientations (password and login security, guidelines for upload of narrative and other reports).

A small group of grantees submit data requirements, with an agreement between the grantee and FTF, through an established secure web service or FTP (File Transfer Protocol) site via the internet, rather than a PGMS web-based entry form. Such data is likely to contain limited distribution data and shall adhere to the following protocols. Grantees that submit data through the secure web service must submit data within the established data structures and format; follow all login procedures; submit a formal data change request form if needed; and ensure that limited distribution data may not be intercepted or viewed at any time by parties other than the grantee and FTF. Additionally, Grantees must ensure that throughout the reporting and submission process the data is secured and that any confidential data is de-identified and/or encrypted.

Any grantee submitting data identified as confidential must file a formal data security policy with FTF.

Data Security Guidelines for Grantee Maintenance of Data

In order to submit data to FTF in fulfillment of reporting requirements, grantees shall keep all data collected for their program(s) within their system (database) or hardcopies. Grantee data is likely to contain highly sensitive information on individuals, their education and their health. These guidelines and requirements are for the maintenance of those data.

All grantees must have a data security policy in force that identifies how the organization ensures that data is protected in all its forms, during all phases of its life cycle, from inappropriate access, use, modification, disclosure, or destruction.

All grantees subject to HIPAA, FERPA, tribal law, or other data regulation are required to submit and maintain those approvals for all data.

Data Permission Guidelines for Grantee Data

All grantees must be prepared for FTF review of client-level data (e.g. child-level, teacher-level, or early care and education provider-level) during on-site visits. Additionally, FTF data reporting requirements may include submission of client-level data (e.g. child-level, teacher-level, or early care and education provider-level). The grantee agrees to allow FTF to access such data. Should the data be subject to HIPAA, the grantee agrees to enter into FTF's HIPAA Business Associate Agreement.

To inform clients of FTF's reporting requirements, all grantees must include in their client enrollment forms the statement: "To comply with reporting requirements of the funding source, I grant permission to [insert grantee organizational name] to release background, service, and impact related information to the Arizona Early Childhood Development and Health Board, also known as First Things First." The grantee warrants to FTF that prior to entering into the grant agreement for FTF funding, it has appropriately enquired and satisfied itself that it has the ability and authority comply with the requirements of this section.

Grantees Serving Clients on Tribal Lands

First Things First recognizes Arizona tribes as sovereign nations that have the right to regulate research and data collection on their tribal lands. To this end, First Things First is committed to obtaining all appropriate tribal approvals for data collection, analysis and reporting. Accordingly, grantees shall only collect, use and share data from tribal land in accordance with a data collection agreement between a tribe and First Things First or the grantee.

Compliance with Data Security Guidelines

The grantee acknowledges that failure to comply with any requirement of these Data Security Guidelines shall be a material breach of the grant agreement.

First Things First's own Data Security Policy & Procedures and Tribal Data Policy may be viewed on the FTF website, www.azftf.gov, under Funding/Eligibility & How to Apply or <http://www.azftf.gov/WhatWeDo/Funding/Pages/Eligibility.aspx>
