23,000

**Project Narrative**

The Gila County Library District will be using the SGIA 2017 monies to provide collection development, equipment, supplies, training, travel and special projects throughout the district. We will keep a portion of the funds at the district level and give a portion of the funds to each of the libraries.

For the District as a whole: \$7,000 (30%)

We will use these funds in various ways to supplement our services to the eight affiliate libraries. We will provide library materials (books, electronic resources) as well as promotional/marketing material for the electronic resources. We will provide training and travel opportunities to for the district staff, as well as the staff at the affiliate libraries. The District will continue to bulk purchase Movie Licensing USA for the eight libraries to comply with copyright laws.

For the Individual Libraries: \$16,000 (70%)

Each library will receive \$2,000 to be spent on programs, projects or materials that the local librarian has determined important to their library but that they do not have funds for in their regular budgets. These projects may include computer upgrades, collection development, supplies, equipment, furniture or summer reading supplies and/or programs. Since the eight libraries are vastly different, their needs are varied. The common thread is that they all have needs that their regular budgets do not cover.
